

TECHNICAL SPECIFICATION

# Aluminum Water Heater Pans

REV.A

### Engineering Specification:

Aluminum water heater pans can be installed under electric or gas water heaters to protect from water damage. All water heater pans come with 1" x 1½" PVC or 1" CPVC drain fittings to allow for connection to indirect drain.

- Manufactured from 20 or 22GA Aluminum sheet
- Come with pre-drilled hole
- 2½" Pan depth

Part No.	Description	Inside Diameter	Outside Diameter
2220-0002	20" Aluminum water heater pan, 20GA thickness	20	21.75
2220-0003	22" Aluminum water heater pan, 20GA thickness	22	23.75
2220-0004	24" Aluminum water heater pan, 20GA thickness	24	25.75
2220-0005	26" Aluminum water heater pan, 20GA thickness	26	27.75
2220-0006	28" Aluminum water heater pan, 20GA thickness	28	29.75
2220-0007	30" Aluminum water heater pan, 20GA thickness	30	31.75
2220-0022	20" Aluminum water heater pan, 22GA thickness	20	21.75
2220-0023	22" Aluminum water heater pan, 22GA thickness	22	23.75
2220-0024	24" Aluminum water heater pan, 22GA thickness	24	25.75
2220-0025	26" Aluminum water heater pan, 22GA thickness	26	27.75
2220-0026	28" Aluminum water heater pan, 22GA thickness	28	29.75
2220-0027	30" Aluminum water heater pan, 22GA thickness	30	31.75

TECHNICAL SPECIFICATION

## Plastic Water Heater Pans

REV.A

### Engineering Specification:

Plastic water heater pans can be installed under electric water heaters to protect from water damage. All water heater pans come with 1" x 1½" PVC or 1" CPVC drain fittings to allow for connection to indirect drain.

- Manufactured from 0.05" plastic sheet
- Come with pre-drilled hole
- 2½" Pan depth

Part No.	Description	Inside Diameter	Outside Diameter
2220-1053	22" Plastic water heater pan	21.5	24
2220-1054	24" Plastic water heater pan	23.5	26
2220-1055	26" Plastic water heater pan	25.5	28
2220-1056	28" Plastic water heater pan	27.5	30
